

BESOCIAL - THE "SOCIAL" SOCIAL NETWORK

How It Works...

- Your doctor will give you a coded brochure that contains information about BeSocial
- You will enter this code to join the BeSocial network

You're In Control...

- You can control what you share, and who you share it with
- You can use the optional text messaging system to receive alerts for needed lab tests, appointments, and other motivational messages

Self-Monitoring Made Easy...

- You can maintain your own goals, note your favorite exercises, and select healthy, delicious recipes

You Are Never Alone...

- You can invite your friends and family to become your Supporters, then issue challenges to them
- Your Supporters can issue challenges and provide encouragement to you
- A wealth of resources will also be available to you, including articles, recipes, exercises, and more
- You can continuously build your support group to fit your comfort level

Why Should You Join?

- **You get exposed to other diabetes management practices.** You can learn a lot in an online community. Diabetes experts have found many tools and tricks over time. Learn from them.
- **You can learn about new research and treatment alternatives.** These experts are constantly on the lookout for new information and new directions to share with patients like you.
- **You can get valuable tips on how to get insurance companies to "cooperate."** The articles and resources available can offer information to help you deal with any unexpected insurance barriers that may present themselves.
- **You can get answers to many of your diabetes questions.** These articles and resources will give you the answers to many questions regarding your diabetes management and care.
- **You can learn about potential side effects.** The diabetes experts can share the knowledge that they've acquired about adverse reactions to drugs and devices that you may be using yourself.
- **You can learn things that your doctor may not know.** The available articles and resources can point out the trouble signs that you and your doctor should look for during treatment.
- **You can get great support through rough times.** Use the wealth of information contained in the reference center. This information is always available to you, any time, whenever you need it.
- **You can trust in your friends.** Your supporters will always be there to help you to manage your diabetes without ever feeling or being alone.
